How to update the Audio Cues app on your phone

From time to time we will be updating the files for the World English Program. If you have the world English programme working on your phone, the update is simple - just do steps 4 and 5 from these instructions.

If you have problems, you can get support from the CO-ID office in Char Fassion.

Later

You will end up with two zip files on your phone, the current one and the old one. If you wish to delete the old one that will be fine. We suggest you wait for some weeks after the update before you delete the old file.
